TECHNICAL SKILLS

Mobile: Flutter, Dart, Clean Architecture, MVVM, Riverpod, Provider, GetIt, Retrofit
Backend: NestJS, Node.js, TypeScript, PostgreSQL, MySQL, Drizzle ORM, REST APIs, JWT, Redis
Integrations: PayMongo, Facebook Graph API, WebSocket/Socket.IO, Firebase, OpenStreetMap
Tools: VSCode, Android Studio, Xcode, Postman, Git/GitHub

PROJECTS

MyNagAlaga: Government Services Platform

Mobile Developer

Grand Winner – 1st Naga City Mayoral Hackathon, Social Services Challenge | 2026

- Developed a scalable and maintainable Flutter application using Clean Architecture, leveraging Riverpod for state management and Retrofit + Dio for efficient, type-safe API integration.
- Integrated OpenStreetMap to show user location, assign the nearest evacuation center via proximity evaluation, and display the route interactively.
- Implemented the Digital Badge module for citizen identity verification across welfare and disaster response workflows.

ElecXus: Consumer Service Management System

Full Stack Developer | Capstone Project | Aug – Nov 2025

- Developed a scalable Flutter frontend using MVVM architecture with Provider state management, featuring map-based complaint location tagging via OpenStreetMap.
- Built Express.js REST APIs for billing, complaints, and notifications, integrating FCM for push notifications, Facebook Graph API for advisories, and real-time complaint status updates via Socket.IO.
- Implemented full PayMongo payment integration (GCash, Maya, GrabPay, Cards) across frontend and backend, including webhook handling.

EatEase: Food Ordering Mobile Application

Full Stack Developer | Jan – Mar 2025

- Built the Flutter frontend with order tracking, in-app chat, and PayMongo integration.
- Developed the Node.js/MongoDB backend handling orders, real-time chat, and payment webhooks.

EXPERIENCE

Software Developer Intern (OJT)

Quanby Solutions, Inc. | Payroll System | Feb – May 2026

- Developed and integrated 11 full-stack modules end-to-end, from NestJS/PostgreSQL backend to Next.js frontend, covering auth, employee management, attendance, leave, overtime, payroll, and more.
- Conducted end-to-end testing across all modules and implemented audit logging and idle session timeout for security and compliance.

EDUCATION

Bachelor of Science in Information Technology

Bicol University College of Science, Legazpi | 2022 – 2026
